3. Defect Summary.....	3
4. Testing Observations	3
5. Conclusion.....	4

1. Project Information

Field	Details
Project Name	DemoBlaze E-Commerce Website
Testing Type	Manual Testing
Application	DemoBlaze
Testing Status	Completed
Test Cases Executed	27
Defects Identified	3

2. Test Execution Summary

Result	Count
Total Test Cases	27
Passed	24
Failed	3
Not Executed	0

3. Defect Summary

Bug ID	Module	Severity	Status
BUG-001	Order	High	Open
BUG-002	Contact	Medium	Open
BUG-003	Cart / UI	Medium	Open

4. Testing Observations

Manual testing was performed on the DemoBlaze e-commerce website covering registration, login, products, product details, cart, order placement, navigation, contact, logout, and UI components. Most of the tested functionality worked as expected. Three defects were identified during test execution, including validation issues in the Order and Contact modules and UI alignment issues in the Cart module.

5. Conclusion

The testing activities were completed according to the defined test scenarios and test cases. Out of 27 test cases executed, 24 passed and 3 failed. The identified defects should be reviewed and fixed before the application is considered ready for release.
